

# Digital HPS Community Repository

## Oral History Release Form

The Digital HPS Community Repository is a central database for storing and providing access to digital objects documenting the history and philosophy of science, including digital audio recordings and transcripts of oral history interviews, operated by Arizona State University. The Repository promotes open access practices by making digital objects within the repository available to scholars and the general public.

I hereby grant to Erick Peirson and Arizona State University, their assigns, licensees, and legal representatives perpetual non-revocable, worldwide, non-exclusive, royalty-free rights to use in any and all forms, for any and all uses, and in any and all media, the recording and transcript of the interview conducted on July 31, 2013. I authorize Erick Peirson and ASU to use my name, statements, and voice reproduction in all forms and in all manners, and waive any claims and demands arising from any future uses in any media. I understand that uses by Erick Peirson and ASU of some or all of the materials include but are not limited to exhibition, publication, and presentation on the World Wide Web and successor technologies.

I further authorize this interview to be placed in a digital repository under a Creative Commons Attribution-NonCommercial-ShareAlike 3.0 Unported License, allowing for any non-commercial reuse with appropriate attribution and similar licensing. No further approval on my part is required for this deposit or any use allowed under the Creative Commons license.

This agreement does not preclude any use that I myself may want to make of the items.
